

2024 Measures on the Ballot

Table 1 lists the measures on the 2024 statewide ballot. Of these 14 measures, 7 propose changes to the state constitution, 5 propose changes to the state statutes, and 2 are questions referred to the voters by the state legislature. The constitution and the statutes together make up state law, but the state legislature may change the statutes, with the Governor’s approval. Statutory measures can be changed in the future without asking the voters.

State law also requires voter approval for some tax changes. These questions are referred by the legislature and do not change the text of state law.

Changing the state constitution requires voter approval. Any constitutional measure adopted by the voters must go back to the voters to change it in the future, although the legislature may adopt statutes that clarify or implement these constitutional measures, as long as they do not conflict with the constitution. Additionally, adopting a constitutional amendment requires at least 55 percent of the votes cast, except that when a constitutional amendment is limited to a repeal, it requires a simple majority vote. Each analysis identifies the vote required for the measure to pass.

Measures referred by the state legislature. A measure placed on the ballot by the state legislature that amends the state constitution is labeled an "Amendment," followed by a letter. A measure placed on the ballot by the state legislature that amends the state statutes or that is referred as a tax question is labeled a "Proposition," followed by a double letter.

Measures initiated by citizens. A measure placed on the ballot through the signature collection process that amends the state constitution is labeled an "Amendment," followed by a number between 1 and 99. A measure placed on the ballot through the signature collection process that amends the state statutes is labeled a "Proposition," followed by a number between 100 and 199.
