

LARIMER COUNTY REPUBLICAN PARTY EXECUTIVE BOARD'S 2024 BALLOT MEASURE GUIDE

Amendment 130

 PASSED

While this is an expensive proposition to implement, we support this necessary one-time use of funds to support our peace officers.

Amendment 129

 PASSED

We support the creation of this new mid-level position to deal with the shortage of veterinarians, particularly in rural areas, to care for pets and the every increasing cost of that care.

Amendment 80

 FAILED

While we are generally supportive of school choice the executive board chose not to take a position on this amendment due to problematic language found in the last sentence stating that “Each K-12 child has the right to school choice.” This constitutional wording may in some cases grant the authority for school choice to the child instead of the parents.

Amendment 128

 PASSED

We support this proposition’s goal to insure that violent offenders, particularly those who repeatedly victimize others through violent criminal acts, should remain incarcerated until they have paid their debts to society.

Proposition KK

 PASSED

We oppose this proposition because it is counter to our support of lower taxes, limited government, and the right of citizens to defend themselves. This would increase state tax revenue by \$39 million in just its first year and makes gun ownership more expensive for hunters and for citizens who wish to protect themselves. The beneficiary programs are already funded by federal and state taxes.

Amendment 127

 FAILED

We oppose this proposition because it is an unnecessary change to current wildlife management practices that are in the best interest of these big cats.

Proposition JJ

 PASSED

We oppose this proposition. We support a key TABOR provision in Colorado’s constitution put in place to protect taxpayers from unnecessary government growth and overreach.

LARIMER COUNTY REPUBLICAN PARTY EXECUTIVE BOARD'S 2024 BALLOT MEASURE GUIDE

Amendment 131

FAILED

We are in opposition to this proposition. The cost of implementing ranked choice voting is expected to increase substantially and the ability to audit the results will be significantly impaired at a time when voters have reduced confidence in the integrity of our election processes and results. Neither the jungle primary or ranked choice voting are a solution to election integrity concerns or the deep divisions currently created in partisan elections.

Amendment K

FAILED

We oppose this amendment. No change to the timeline for citizens to submit signatures for petitions. It is difficult enough to collect signatures with the current process.

Amendment H

PASSED

We support this change in the handling of misconduct hearings and disciplinary actions for the judicial branch . It creates needed transparency and allows for increased public access.

Amendment 79

PASSED

We oppose this amendment. Colorado already has some of the strongest protections for abortion rights of any state in the nation by allowing legal protection for all nine months of pregnancy. Parents should not be denied notification and those who oppose abortion should not be required to fund it under force of law.

Amendment J

PASSED

Leave the current definition in place.

* Opposition to this amendment was not unanimous

Amendment G

PASSED

We support expanding homestead property tax exemptions to include those veterans who are unemployable due to service-related disabilities. We thank them for their service and sacrifice for us.

Amendment I

PASSED

With the repeal of the death penalty in 2020, first degree murder no longer meets the “capital offence” criteria. Currently only those charged with capital offences can be denied bail. We support passage of this amendment to increase public safety.
